## TMI STAFF

### Carol de la Herran

*Executive Director & President*

[carol \[at\] monroeinstitute.org](mailto:carol@monroeinstitute.org)

Carol, originally from the United States, lived in Spain for many years, and for the last 22 has been associated with The Monroe Institute. As a residential trainer and international Outreach trainer, she held weekend and week-long programs in Spain and other locations around the world as her full-time work since 1995. She has been a Professional Member and on the Board of Advisers of The Monroe Institute for many years. Carol holds degrees in Psychology (PhD), Law, an MBA in International Marketing and a doctorate of Energy Medicine.

In 2009 Carol moved back to America to reinstate the Outreach program, training new facilitators to teach weekend programs in their local areas. She later accepted the position of Director of Programs and was elected Vice President by the Board of Directors. In December 2011 she was appointed to the position of Executive Director/President.

In this role, she wants to make a bigger contribution to the world, in the study and experience of different levels of consciousness, but also in very practical ways, helping people lead better, more satisfying lives. Her plans include putting in place the administrative structures that provide a solid base for the Institute, expand research of the new SAM technology, and organizing systems to spread and develop TMI programs throughout the worldwide community. "I believe, as did Bob Monroe, that the Monroe technology is an incredible way to serve humanity on so many different levels. We want to take it to the next level... or three."
